# SOLUTION FEATURES

**oAppsNET's 25+ years of experience and dedication to Oracle along with our product development is key to our Accounts Payable solution's continued innovation. Below are some of the most prominent oAppsNET features behind the benefits:**

## MULTI-CHANNEL PLATFORM

oAppsNET offers a single, collaborative platform that enables invoice processes across many formats and reception of multiple inbound channels, including various files formats. Our single source of truth design allows AP departments to streamline their P2P processes so businesses can grow without operational restraints.

## ERP INTEGRATION

oAppsNET's solution includes prebuilt and configured Oracle® EBS connector. The oAppsNET solution was designed to allow simultaneous integration with multiple ERPs, simplifying diverse environments resulting from M&A activity. Business advantages include: simplified implementation, real-time access, non-ERP user approval capability and simplified setup of shared services centers.

## WEBCENTER FORMS RECOGNITION

Oracle WebCenter Forms Recognition is a learning-based intelligent document recognition (IDR) solution that can recognize, categorize and extract information from any type of document. Oracle WebCenter Forms Recognition uses intelligence - not templates - to effectively locate, extract, and link data to back-end systems and processes, to provide the industry's highest level of document recognition and data extraction.

## ORACLE CONTENT MANAGEMENT

Oracle's cloud based content management provides organizations with a single system to capture both paper and electronic documents along with a user-friendly web interface capable of using high-volume, production-level scanners. OCM also centralizing your content all in one place and making it accessible anywhere.

## DASHBOARDS & ANALYTICS

oAppsNET's solution is configured with intelligent dashboards that display live, visual analytics (e.g., AP invoice status, AP processing metrics, discounts at risk, etc.). This feature is fully customizable so that users can choose what they want to see and track.

## SUPPLIER MAINTENANCE

As part of oAppsNET's Accounts Payable solution, a conveniently integrated Vendor onboarding & maintenance solution that consists of pre-built & pre-configured workflows along with Oracle ERP connectors that make your Vendor maintenance and onboarding a breeze. The vendor management solution can also be configured for as as standalone application.
